

Emery Corporation Quality Policy

Emery Corporation will maintain a documented quality management system ensuring complete traceability throughout the entire manufacturing process. The Emery, “quality” is the superior performance of all processes from quoting a product or service to the delivery of that product or service to the customer.

The responsibility for and commitment to quality belong to ***all personnel*** to follow the procedures set forth by management. Quality will be ensured by each employee who performs a given process in the manufacturing of our products. It is the responsibility of each employee to ensure that all customer, statutory and regulatory requirements are met relevant to their job function.

This quality management system complies with the requirements of ISO 9001:2008, 10CFR50 Appendix B, NQA-1:1994, 2000 & 2008, MIL-STD 45622A, MIL-I 45208A, MIL-Q 9858 and FAI per AS9102. We are especially proud of our complete collection of small tooling, inspection equipment, and our quality system program.

Emery Corporation's principal quality objectives are as follows:

- A. To continually meet the Customer's stated needs through timely delivery of compliant product.
- B. Through the internal audit program, to continually provide confidence to management that total quality is being achieved and sustained providing internal quality assurance.
- C. Immediate action to correct deficiencies and proactive response to prevent recurrence through the corrective action program.
- D. To provide training to ensure continuous quality improvement.

With emphasis on satisfaction of the customer's needs, it is the overall goal of this company to maintain a quality system that will provide superior quality and strengthen our own competitiveness.

EMERY CORPORATION strives to deliver the highest quality products and services on-time and competitively-priced.

Quality Statement

Our total quality system provides superior quality products for customer satisfaction.
